

Total Property Management 4 Schools is the name of the property management service offered by **DBE Services**.

DBE Services is a joint venture by six educational charities who have responsibility for Church of England Schools in their role as Diocesan Boards of Education. Whilst the joint working began formally in 2000 individually they had been supporting schools since the late forties.

The six DBEs between them support over 800 schools across a wide area and cover 26 LAs from Cumbria in the north down to Cheshire in the south and across to Northumberland, Yorkshire and all points in between.

Our philosophy

To strive to give the highest quality of service which is value for money and adds value to the mission of each individual school. We believe every school/academy/free school is unique. Our services are tailored to meet your individual needs. As well as providing services to individual schools and academies we work very closely with LAs, Dioceses, local and national educational bodies, academy chains, and other school providers.

The **Total Property Management Scheme** does what it says on the can - it offers a Total Property Management service from regular servicing and compliance; any form of reactive maintenance; planned maintenance; redesign and capital development. In effect everything from putting a screw in a door to building a multimillion pound new school. We offer a **one stop shop** to head teachers, business managers, site supervisors and governors.
