

HEALTH AND SAFETY SERVICE TO SCHOOLS

A number of schools have asked if we can provide comprehensive Health and Safety Support particularly as some LAs are now charging schools to provide audits and specialist advice

The service we can offer includes:

Information, advice and guidance on all aspects of health safety as it relates to your school.

Support with policies

Audit of health and safety policies and procedures

Review and development of risk assessments

Email updates of any changes in legislation

24hr telephone help line and email support

Access to on-line training

Access to occupational health

Support with accident reporting

In addition, we can arrange for a complete review of policies and any additional support that a school may need for particular issues or individuals.

We already provide Fire Risk Assessments and support with any matter relating to fire safety and the Regulatory Reform (Fire Safety) Order

The annual cost for a primary school is £625 and a secondary £1200
